### MEMO

---

---

**TO :** ALL UNIVERSITY COMPUTER USERS  
**FROM :** ICT DEPARTMENT  
**DATE :** MONDAY, 23<sup>RD</sup> AUGUST 2021  
**SUBJECT :** ACTIVE DIRECTORY (AD) SERVICES

---

---

This is to notify you that the ICT personnel will be visiting your office to connect your office computer to the PUEA domain active directory services.

Active Directory (AD) is a database and set of services that connect users with the network resources they need to get their work done.

Joining of computers and users in the PUEA domain will:

- Enhance information security.
- Centralized user and rights management as well as centralized control over computer and user configurations through the AD Group Policy feature.
- Users can authenticate once and then seamlessly access any resources in the domain for which they're authorized (single sign-on).
- Storage of files in a central repository where they can be shared with other users to ease collaboration, and backed up properly by IT team to ensure business continuity.

Thank you.

Yours faithfully,

George Chege,

ICT Manager
